

TEXEL GEO-ABSORB

FOR OIL ABSORPTION AND ENVIRONMENTAL PROTECTION APPLICATIONS

+ BENEFITS:

Ensures a clean and safe worksite by absorbing initial leaks;

Acts like blotting paper to enable intervention without harming the soil;

Limits the spread of spills;

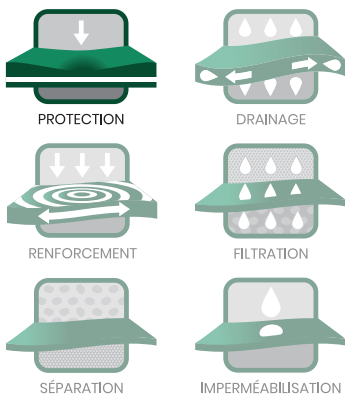

Reduces environmental impact.

THE SOLUTION

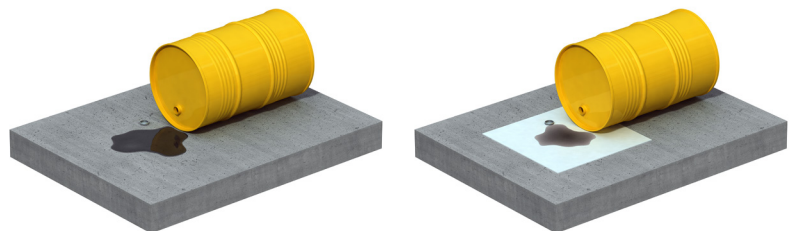

Texel Geo-Absorb is a product designed for oil absorption applications. It has been tested for motor oil absorption (10W30). The test results help guide users in making informed decisions for environmental protection, whether it's for managing daily drips or preventing a spill. The physical, mechanical, and hydraulic properties of Texel Géo-Absorb are optimized for effective protection, even on uneven surfaces.

FUNCTIONS

SECTORS

- ✓ Municipal and Landscape Architecture
- ✓ Natural Resources and Energy

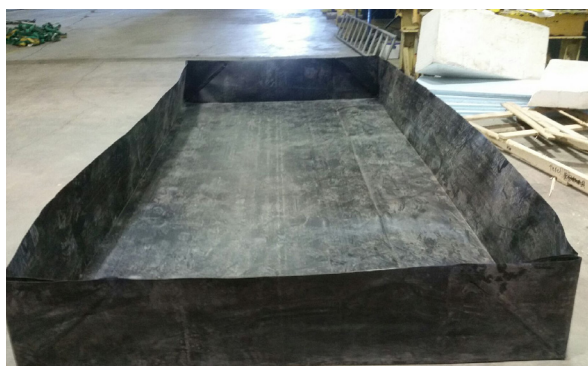

USES OF TEXEL GEO-ABSORB

A SOLUTION DESIGNED FOR ENVIRONMENTAL PROTECTION

- Safely captures up to 3 litres/m²;
- Ideal for containing initial leaks;
- Facilitates spill recovery;
- Easy to install under any vehicle, barrel, forklift, generator, etc. ;
- When combined with a geomembrane, Texel Geo-Absorb becomes a berm that allows for more permanent intervention.

TEXEL GEO-ABSORB

MINI BERM

- When used with a geomembrane berm, Texel Geo-Absorb makes it easy to contain and clean up pollutants on construction sites;
- Easily adaptable to various types of worksites;
- Custom dimensions available;
- Geomembrane edge can be simply folded or reinforced to a variable height.

A SOLUTION FOR ENVIRONMENTAL PROTECTION

Using Texel Geo-Absorb makes it easier to recover hydrocarbon pollutants. Whether managing a daily drip or responding to a spill, this product provides valuable reaction time before reaching saturation. It helps limit the spread and reduce environmental impact—both in natural settings and in the workplace. Thanks to its physical and mechanical properties, Texel Geo-Absorb is flexible and easy to install, even on uneven surfaces, ensuring optimal protection.

Texel Geo-Absorb captures and safely disposes of pollutants, preventing them from seeping into the ground. Its use reduces the environmental impact of a spill while maintaining a clean and safe work environment.

Texel Geo-Absorb is a cost-effective, quality-controlled absorbent recommended for standard leaks and spills. It offers users a durable solution for a compliant, safe, and protected workplace. Additionally, when combined with a geomembrane, Texel Geo-Absorb can serve as a mini berm.

MINI BERM WITH TEXEL GEO-ABSORB

SPECIFICATIONS	Description	Product Type	Format
	Texel Geo-Absorb	Needle-punched nonwoven geotextile	Roll

TEXEL GEO-ABSORB – THE PROPERTIES THAT MAKE THE DIFFERENCE

- Composition: Polypropylene
- Excellent resistance to most acids and alkalis
- Good resistance to mold
- Strong and durable, with high tensile and tear strength

This table provides a summary of the specifications. All users are encouraged to consult the up-to-date technical data sheet available on our website at www.texel.ca.
